

Print this Target on White Construction Paper in Color. Laminate and cut out. Hang somewhere on a wall with tape (be careful not to place near something breakable.) or you can place the target on the ground so that students can stand over top of it.

Purchase Rubber Darts from a dollar store or toy store if using the target on the wall or floor. Or if unable to get rubber darts – get small stones or a bean bag and put the target on the ground. Let children drop the stone/ bean bag to see what number it lands closest too.

Have children take turns throwing darts at the target (or dropping stones/ bean bags), whatever number they land closest too – ask them what plague that was. Example 1 – the first plague was blood, 2 plague frogs, 3 – gnats, 4 – flies, 5 – livestock, 6 – boils, 7 – hail, 8 – locusts, 9 – darkness, 10 – death of firstborn
