Using the Flash Cards

Memorization

Let students receive flash cards in order from 1 to 26 in the order that students will use them. Help them learn to pronounce the names correctly. After pronouncing the cards, turn a few cards over to see the name. Do not let the students depend on the students to say the names of the cards. Turn over every card so that the students can appreciate the artwork.

Mix up the cards and give students a few days to get the names in order as possible. Double the class in the areas if you have lots of students and give each person a card.

Construction

Let the cards be made the construction paper.

Make the students pronounce each name as they turn them over. The color idea, and students can use pictures when they find a matching set.

Class Roll Call

Teachers can use the cards for roll call, but they can use them in other ways.

The cards can help correct the names of each card, so the students can learn. They can use the cards to help improve their reading skills from the Bible. They can use them to help.
