## How to Play

Print Board Game on White Card Stock. Give the students game pieces (from other games or just coins or candy or whatnot). Place all pieces on start. Have each student roll a die and move forward the number of spaces they roll. If they land on a positive number, they move that many spaces forward too. If they land on a negative number, they move that many spaces back. When they land on a symbol, you ask them a question from the questions below.

Don't penalize the students for wrong answers, just correct the misunderstanding. First one to end wins.

If you have a single child in class, move a piece as well but the child gets to answer all the questions. As you can see, this is primarily a way to review the lesson with the students while they think they are playing.

Before playing Read the story in Genesis of Creation. Genesis 1:1-2:3
